	Address: 51 Nishtar Block, Allama Iqbal Town, Lahore
	Payment receiver: HASAAN AHMED

Work Completed

The following items were completed to improve the AJL Tours website, booking flow, admin panel, customer experience, and production reliability.

- Improved the tour browsing experience so customers can view Switzerland tours more clearly.
- Added and refined tour detail pages with better images, descriptions, pricing, and booking flow.
- Improved checkout, order summary, participant selection, and payment success/failure pages.
- Added group discount pricing so larger bookings can show correct discounted totals.
- Added currency support and exchange-rate handling for clearer price display.
- Added customer dashboard features including bookings, wishlist/favorites, and support-related records.
- Improved the admin dashboard for managing tours, orders, users, travel records, divisions, settings, and homepage banners.
- Added email/notification support for booking and customer communication workflows.
- Added multilingual website support structure for English, French, German, and Italian content.
- Improved SEO files, robots.txt, sitemap, and production frontend/backend configuration.

Bugs Fixed & Stability Improvements

- Fixed tour creation errors in the admin panel, including missing data and division validation problems.
- Fixed migration/routing issues that caused some admin tools to show not found errors.
- Fixed database connection handling with clearer errors and more reliable production behavior.
- Fixed tour ID consistency issues that affected links, checkout, and tour detail loading.
- Fixed CORS and deployment configuration issues between frontend and backend.
- Improved login/security flow for admin access and protected admin routes.
- Cleaned up duplicate backend logic and improved error handling so problems are easier to diagnose.
